About the Role

Job Description :

To serve as a liaison to the medical/ scientific community and responsible for establishing, developing and partnering with Health Care Providers/ Professionals (HCPs) and HCS. To implement clinical and educational strategies in collaboration with other Novartis colleagues for designated stakeholders. To pair key stakeholders' scientific educational and research needs with available Novartis resources and provide the latest emerging data in response to specific HCP inquiries, as appropriate.

Your responsibilities include, but are not limited to:

- Collection from HCP/HCS/Patients and generation of actionable insights that may impact Novartis development plans, trial designs, launch strategies and tactics
- Planning and execution of field medical strategic and tactical plans (MEEP), aligned with Japan medical franchises and Medical Excellence and Execution
- Lead to accelerate new customer engagement models for field medical with full utilization of NGE
- Develop and maintain understanding of community of practice by understanding area-specific challenges and HCP needs in collaboration with commercial colleagues
- Guideline related communication to ensure appropriate positioning and patient access
- Contribute to the identification and mapping of MEs/decision makers
- Contribute to the development of publication plans, medical event
- Upon investigators' unsolicited requests, liaise between potential researchers and Novartis on the IIT/MTA submission process

- Work as Patient Engagement Liaison (PEL)

Why consider Novartis?

817million. That's how many lives our products touch. And while we're proud of that fact, in this world of digital and technological transformation, we must also ask ourselves this: how can we continue to improve and extend even more people's lives?

We believe the answers are found when curious, courageous and collaborative people like you are brought together in an inspiring environment. Where you're given opportunities to explore the power of digital and data. Where you're empowered to risk failure by taking smart risks, and where you're surrounded by people who share your determination to tackle the world's toughest medical challenges.

Education:

Bachelor's degree

Science background

Language:

Fluent Japanese

Professional requirement:

- Strategic thinking
- Strong cross-functional leadership skill
- Superior interpersonal, communication, negotiation skills
- Scientific and clinical understanding with very high level of learning agility
- Experience for actionable insights generation
