Summary

This role will be a part of our growing Data & Product Services team, and report to Team Lead – Data & Product and Build and deliver Field Excellence insights as per agreed SLAs (timeliness, accuracy, quality, etc) and drive excellent customer service Services

About the Role

Location – Hyderabad #LI Hybrid

About the role

766 million lives were touched by Novartis medicines in 2021, and while we're proud of this, we know there is so much more we could do to help improve and extend people's lives.

We believe new insights, perspectives and ground-breaking solutions can be found at the intersection of medical science and digital innovation. That a diverse, equitable and inclusive environment inspires new ways of working.

We believe our potential can thrive and grow in an unbossed culture underpinned by integrity, curiosity and flexibility. And we can reinvent what's possible, when we collaborate with courage to aggressively and ambitiously tackle the world's toughest medical challenges. Because the greatest risk in life, is the risk of never trying!

Imagine what you could do here at Novartis!

This role will be a part of our growing Data & Product Services team, and report to Team Lead – Data & Product Services

Key Responsibilities

· Create and deliver Field Excellence insights as per agreed SLAs (timeliness, accuracy, quality, etc) and drive excellent customer service.

· Design, develop and/or maintain ETL based solutions that optimize field excellence activities based on Country commercial excellence needs through a variety of evolving infrastructure landscape.

· Deliver services through an Agile project management approach with appropriate documentation and communication throughout the delivery of services.

· Maintain standard operating procedures (SOPs), quality checklists that will enable excellent quality outputs

for all outputs within the function.

· Develop and maintain knowledge repositories that collect qualitative and quantitative data of field excellence related trends across Novartis operating markets.

Essential Requirements:

-Experience of at least 4 years in using ETL tools (Alteryx, DataIKU, Matillion etc.)

-Working knowledge of cloud-based platforms like SnowFlake is mandatory.

-At least 4 years' experience in SQL and Excel

-Learning Agility & Ability to manage multiple stakeholders.

Good-to-Have:

-Experience in Pharma datasets.

-Experience in Python or any other scripting language.
