Summary

Associate Dir. ITOT Integration

As an Associate Director of ITOT Integration, you will play a crucial role in overseeing the integration of shop floor equipment with IT and OT systems across various domains. Your main responsibility will be to ensure the efficient flow of data from the shop floor to the enterprise level. Working alongside a team of experts, you will be responsible for coordinating and implementing the necessary middleware setup to facilitate data transfer. This will involve defining data points based on specific business requirements and industry best practices. In addition, you will oversee the configuration of end-to-end interfaces and conduct thorough interface qualification processes. Your goal will be to establish and maintain operational stability throughout the integration process.

Your role will be instrumental in enabling the effective integration of shop floor equipment with IT and OT systems, ensuring accurate and reliable data availability at the enterprise level.

About the Role

Key Responsibilities:

- Proactively shape roadmap (3-5y horizon) for the area of given responsibility and ensures that Roadmap is aligned with Business priorities.
- Execute strategy for business systems, platforms and processes for a particular Business domain / Function.
