Zusammenfassung

105,000 people reimagining medicine for more than 766 million people globally. 10 major new medicines planned for launch over the next few years creating new career opportunities for those who want to make a direct impact on patients at scale.

About the Role

Key responsibilities:

- Process and system expertise from SOD (Segregation of duty) perspective, continuously enrich process knowledge through partnering with IT, Business and FC&C community
- Risk Reduction- work closely with the Risk Owners / Process Owners to complete User Access Review, Segregation of Duties and Critical Action reviews effectively and timely
- Drive continuous access controls improvement, define and implement solutions • Reduce the overall number of SoD conflicts across systems and processes
- Continuously share the latest access controls updates, best practices and access controls learnings with both FC&C as well as non-FC&C community, train role owners and risk owners on access controls
- Drive automation initiatives in the SoD and GRA Access Control area to continuously enhance processes and challenge status quo
- Ensure transparent, reliable and agile stakeholder management People management, incl. ensuring a high-performance work culture. Ensure workload balancing of the team supporting multiple initiatives, strong focus on Continuous Improvement initiatives, support support transitions and knowledge transfer, monitoring critical deliverables
- Support in ensuring Low number of internal control deficiencies, Timely reporting of the control deficiencies to local and global stakeholders ,Maintain and improve customer service, Adherence to SOX timelines and SOX 404 attestation processes ,Internal and external audits, if required and support for remediation of agreed action

Essential Requirement:

- B tech , MBA or Equivalent/University Degree
- 2-6 years of post-qualification experience (incl. IT Application Controls and SAP GRC, SAP security concepts)
- Expert with SAP GRC Access Controls and SAP authorization concepts primarily in ECC, S/4 HANA.
- Project management skills with focus on driving performance and productivity.
- SAP GRC AC Certified

Desired requirement:

- Having prior experience in process automation and digital tools such as Microsoft Power Automate, BOTs, Power BI, and Alteryx would be added advantage.
- Prior working experience in a large Audit firm or top tier IT service providers
