Zusammenfassung

Location: Slovenia, Ljubljana, #LI-Hybrid

The End-to-End Supply Network Planning Manager (SNP) drives network supply, optimizes inventory, and ensures demand completeness, accuracy, and stability within the tactical (0-3 years) and strategic (3-10 years) horizon for finished product through strategic raw materials.

Join us and become our next talent.

About the Role

Key Responsibilities:

- Implement and maintain product parameters across network to drive replenishment and resulting inventory at decoupling points and in markets based on product segmentation and configuration guidance.
- Defines (based on configuration strategies) and ensures global consistency of planning master data and optimal use of SAP for demand and supply planning.: yield, production losses, minimum order quantities, Safety Stocks at de-coupling points, campaign strategy, order frequency, STD vs MTO, and DS Equivalent.
- Ensures the integration of life-cycle planning assumptions within the tactical planning horizon, 0-3 years (particularly launches incl. new dosage forms, site transfers, production changes, divestment and pruning)
- Responsible for defining the bridging stock required to support a life cycle event as a member of the Supply Support Teams (SST)
- Responsible for completeness, accuracy, and stability of finished product net requirements across portfolio
- Ensure that the complete independent demand from all forecasting entities (Affiliates, Novartis Pharma Services countries, Development, 3rd Parties) and the resulting net requirements is passed to all NTO sites.
- Responsible for consolidation of the FP, DS and DP demand based on independent demand input from the markets and customers in the tactical horizon and respective commercial groups for the strategic horizon.
- Defines, implements and monitors supply and capacity performance across the network of technology assets assigned to them, within the Tactical horizon.

Essential Requirements:

- BS/BA in life science, engineering, business or relevant experience. Master of Business Administration (MBA) preferred.
- Minimum 3 years relevant professional experience ideally gained in the pharmaceutical, Bio-Pharma or

similar industries across various disciplines. People management and change/project management experience preferred.

- Excellent command of English with a second language preferred

Knowledge of Microsoft Office.

- Knowledge of Microsoft Office.

- Highly motivated, independent and self-initiative.

We offer **permanent employment**, with **6 months** of probation period.

You are kindly invited to submit your application in English language, including CV.
