

# Technical Trainer, PM shift

Job ID  
REQ-10027483  
Nov. 22, 2024  
USA

## Zusammenfassung

The Technical Trainer (PM Shift) will be responsible for the maintenance and delivery of the technical training associated with the entire value stream. This role provides technical training to the manufacturing cell processors, aseptic trainers, media technicians, and other value stream manufacturing related functional roles.

This is an onsite position located in Morris Plains, NJ. Novartis is unable to offer relocation support for this role. Please only apply if the location is accessible for you. The working hours are 1p-9:30p

## About the Role

### Major accountabilities:

- Coach, mentor, and train cell processors on the required skills, technical courses, and materials in manufacturing process to perform their jobs efficiently
- Maintain and support the scheduling of technical training activities including all required training for the manufacturing process (e.g. classroom instruction, systems training, etc.)
- Maintain the training program in accordance with business needs, regulatory requirements, and Quality Management System
- Assist in the development and / or review developed training materials for technical accuracy, regulatory compliance, and effectiveness
- Oversee and maintain training equipment, material and training environment
- Demonstrate strong Aseptic Technique, Process Knowledge, and maintain gowning and aseptic process qualifications
- Support investigations and CAPAs related to manufacturing process within required timelines while ensuring that the training program remains in alignment
- Ensure effective knowledge transfer in relation to technical transfer activities, as required
- Actively align manufacturing processes with technical training and ensure consistent alignment between the processes
- Provide training regarding best practices, technical transfers, and other trainings as needed to the manufacturing, quality, warehouse, support, site management

### Requirements:

- Bachelor's degree with 2+ years of work experience in the pharmaceutical industry or equivalent
- 1+ year/s of related pharmaceutical technical training experience preferably in a production, QA, and/or QC related role preferred
- Direct experience working in a GMP and aseptic or sterile environment

- Cell & gene therapy experience preferred
- Leadership experience highly desired (i.e. team lead, SME, senior technical role, etc.). Foster & support a team culture that is engaged and empowered

<https://www.novartis.com/about/strategy/people-and-culture>. The pay range for this position at commencement of employment is expected to be between \$84,000-126,000 annual; however, base pay offered may vary depending on multiple individualized factors, including market location, job-related knowledge, skills, and experience. The total compensation package for this position may also include other elements, including a sign-on bonus, restricted stock units, and discretionary awards in addition to a full range of medical, financial, and/or other benefits (including 401(k) eligibility and various paid time off benefits, such as vacation, sick time, and parental leave), dependent on the position offered. Details of participation in these benefit plans will be provided if an employee receives an offer of employment. If hired, employee will be in an “at-will position” and the Company reserves the right to modify base salary (as well as any other discretionary payment or compensation program) at any time, including for reasons related to individual performance, Company or individual department/team performance, and market factors.
