Resumen

Millions! Novartis made a decision to pursue early discovery research internally to allow us to quickly translate the most impactful discoveries into therapeutics for millions of patients.

About the Role

YOUR KEY RESPONSIBILITIES:

Your responsibilities include, but are not limited to:

- Plan and support development of early and late phase NCE development for solid (tablet, capsules), liquid (solution, suspension, microemulsion), parenteral and topical dosage forms (including poorly soluble compounds).
- Plan and support entire drug product development process starting with first pre-formulation studies up to the manufacturing process transfer to production and the provision of the required documentation to allow worldwide registration
- Support development of robust formulations and processes through optimization, scale-up and validation work applying QbD principles incl. risk assessments and DoEs
- Strong scientific background wrt biopharmaceutics and its application in DP development
- Provide documentation of raw data, evaluation and contribute to interpretation of results. Provide input for the selection of next experiments.
- Communicate and address problems, perform safety and literature searches under guidance from more experienced team members.
- Meet quality, quantity and timelines in all assigned projects.
- Perform and document scientific experiments

WHAT YOU'LL BRING TO THE ROLE:

- Master of Science with 5 to 8 years of experience or PhD in Science with focus on pharmaceutical sciences and technology (e.g. Pharmacy, Chemistry) with 2 years of experience
- Awareness for safe handling of chemicals, potentially dangerous materials and equipment.
- Adequate scientific or technical knowledge in a specific area (e.g. synthetic, analytical, galenical).
- Basic knowledge in scientific/technical areas of collaboration.
- Good knowledge of laboratory and/or technical tools.
- Adequate knowledge of software and computer tools.
- Creative thinking and effective interdisciplinary collaboration with other functions.
- Basic presentation skills and scientific/technical writing skills.
- Good communication skills and basic organizational, planning and negotiation skills.
