Resumen

Join our team as a Medical Science Liaison (MSL) and make a significant impact in Medical Affairs! As an MSL at Novartis, you will develop peer-to-peer relationships with Medical Experts and key stakeholders. Utilizing scientific evidence, you will strategically support the development, launch, and commercialization of our products. You will also provide clinical trial support and respond to requests for scientific information. If you have a passion for scientific exchange and making a difference in healthcare, this is the role for you!

About the Role

Major accountabilities:

- Contribute to identification and mapping of Medical Experts/key stakeholders in line with local strategies.
- Provide and discuss scientific information and data with HCPs to ensure quality and accuracy of medical and scientific information on new treatment options including Novartis products and selected areas of therapeutic interest.
- Liaise and provide up-to-date medical support to relevant external groups to ensure evidence based understanding of Novartis products relative to medical guidelines, and health economic information.
- Provide scientific educational activities to support study accrual for key trials as appropriate.
- Provide feasibility and research site recommendation for Novartis sponsored clinical trials.
- Collaborate with ICRO team and Medical Advisors, to support clinical sites, including providing guidance in accordance with guidelines, Novartis Internal Policies, and regulations as appropriate.
- Upon investigator request, liaise between potential researcher and the Company on IIT submission process or requests for research grade substance (Material Transfer Agreements) to support independent clinical/preclinical research.
- Engage in scientific discussions related to Novartis research areas/compounds/pipeline with MEs, speakers & investigators.
- Provide scientific and educational information to healthcare professionals on specific patient critical issues.
- Provide speaker training to HCPs to support education to the healthcare community about new therapies developed and commercialized by Novartis. Scientific Research Support

Ideal Background & Experience:

- Educational Background: A degree in life sciences is required. Medical Degree will be positively valued.
- Experience: Previous experience as a Medical Science Liaison (MSL) or in a related position is desirable.
- Ability to develop and foster peer-to-peer, credible relationships with Medical Experts/decision makers.
- Thorough knowledge of clinical medicine, disease management, and medical research in at least one therapeutic area.

- Ability to understand and convey emergent scientific information
- Proven ability to use IT tools and interface effectively with a variety of technical platforms.
- Strong personal integrity, and customer focus.
- Excellent interpersonal communication, negotiation, and advanced presentation skills.
- Able to effectively contribute and work on multifunctional teams.
- Must be able to adapt, organize, prioritize, and work effectively in a constantly changing field-based environment.

Languages:

- Local language: fluent written and spoken
- English: fluent written and spoken

Benefits and Rewards:

Company Pension Plan, Life and Accidental Insurance, Meals Allowance or Canteen in the office, Flexible working hours. Read our handbook to learn about all the ways we'll help you thrive personally and professionally: [Novartis Life Handbook](#)

Commitment to Diversity and Inclusion / EEO

Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you.
