Resumen

~Capo turno II

~Il capo turno è responsabile della gestione del suo team per eseguire le operazioni di produzione secondo il programma in conformità con le regole HSE e GMP.

~Esperto di processo

~Fornire supporto tecnico e scientifico in prima linea per tutte le questioni specifiche del processo per garantire l'esecuzione dei processi in tempo (continuità aziendale); in conformità a cGMP, SOP e linee guida e standard funzionali applicabili (ad esempio HSE, NOSSCE) e per consentire un continuo miglioramento della qualità, dell'efficienza della produttività.

~Utilità di pianificazione operativa

~L'utilità di pianificazione operativa stabilisce e mantiene aggiornato un piano dettagliato per le attività correlate all'unità di produzione. L'utilità di pianificazione operativa è responsabile dello sviluppo di diversi scenari di produzione (aumento della velocità di esecuzione, modifiche del processo, ramp-up, adattamento del modello di turno, ecc.) e del miglioramento dello strumento di pianificazione.

~Esperto di sistemi di produzione

~Esperto MES che fornisce competenze tecniche a supporto di tutte le questioni legate ai registri elettronici dei lotti (eBR). MES Expert supporta l'implementazione mes, l'implementazione e il miglioramento continuo nelle unità di produzione e fornisce supporto tecnico di routine in officina.

~Allenatore tecnico

~Fornisce formazione tecnica e risultati di apprendimento valutati per l'ambito assegnato. Può anche progettare e sviluppare interventi di apprendimento. Può anche guidare la risposta di audit di formazione per il sito.

About the Role

Major accountabilities:

- Ensure that raw materials used for the manufacturing process are always available in the right amount and properly stored according their status.
- Support Production Manager to write down and to validate the Standard Operating Procedures and Work Instructions relating to production operations and to ensure their strict implementation.
- Be the Deputy of Production Manager in managing, coordinating and approving the execution of the production activities for the batch release when Production Manager is not on site.

- Support Production Manager to ensure proper qualification and maintenance of the manufacturing department, premises and equipment.
- Ensure, in collaboration with Production Manager, appropriate initial and continuing training of the manufacturing department personnel.
- Manage the presence, shifts and performances of the Production Technicians when Production Manager is not on site.
- Manage the re-planification in case of failure to mitigate the impact for the patient in collaboration with QP when Production Manager is not on site.
- Support Production Manager to improve continuously the performance through key performance indicator.
- Management of waste material.
- Support in Health, Safety and Environment management in collaboration with the Production Manager.
- Support Production Manager on compliance activities and documentation on site with existing statutory and corporate standards in the area of regulatory compliance, cGMP, Health, Safety, and Environmental Protection.

Minimum Requirements:

- Scientific Degree.
- Previous experience in a similar role within the pharmaceutical/biotech environment.
- Open and clear collaboration and communication to make sure the daily production operation runs smoothly.
- Exploitation of new technology and techniques to eliminate non-value adding activities and improve productivity / performance through new processes.
- Shows the appropriate sense of urgency around given tasks.
- Fluent in Italian. Good knowledge of English.
