Résumé

En línea con la estrategia general del producto, el Asesor Médico es responsable de apoyar el diseño, la implementación y la ejecución de los planes de Asuntos Médicos para el Área de Terapia asignada, proporcionar información científica, ayudar a diseñar y organizar estudios clínicos, construir un diálogo educativo con los KOL y las partes interesadas reguladoras.

About the Role

Major Accountabilities

- Ensure that medical consultations are answered in a high quality, timely manner, and in accordance with applicable standards; establish standard response documents as appropriate for the most frequently asked questions.
- Provide medical/scientific input in the development and execution of clinical trials or activities related to clinical research, including initiation and supervision of clinical trials / clinical research in the respective therapeutic area. Support the country strategy for the activities of non-intervention studies/investigator initiated trials.
- Coordinate the review and approval of medical materials and locally developed promotional materials; ensure that the medical materials provided from the world or the region for participation and stakeholder events are adapted to local needs and reviewed/approved according to local/P3 guidelines.
- Ensure that medical knowledge is provided for cross-functional groups, including: Pharmacovigilance, regulatory affairs, market access, quality control, commercial teams, brand team and others.
- Responsible for the identification and evaluation of risks, mitigation planning, and the implementation and monitoring of appropriate internal controls within the area of responsibilities. Notification of technical complaints/adverse events/special case scenarios related to Novartis products within 24 hours of receipt.
- Notification of technical complaints/adverse events/special case scenarios related to Novartis products within 24 hours of receipt.
- Marketing sample distribution (where appropriate).

Essential Requirements

- Bachelor's Degree / Desirable Scientific background.
- Working experiences in Medical Affairs.
- At least 4 years of experience in the pharma industry.
- Deep understanding of the field roles.
- Experience in data generation.

Languages:

- Local language: fluent written and spoken
