

Director of Patient-Centered Outcomes

Job ID

REQ-10024719

oct 21, 2024

Royaume-Uni de Grande-Bretagne et d'Irl. du Nord

Résumé

As part of the Center of Excellence (CoE) for Patient-Centered Outcomes (PCOs) in the Advanced Methods and CoEs Group and in coordination with the Head of PCO, leads cross-functional patient centered Clinical Outcome Assessment knowledge and activities in different Novartis functions in specific Development Units (DUs).

Enhances and drives alignment of activities among DUs and Global Program Teams to elevate PCO activities to a level of industry leadership, maintaining overall accountability for Company's deliverables in the area.

When required, represents Novartis externally in Industry Associations, Public Private relevant projects (e.g. IMI and IHI) and participates in discussions with Health Authorities and Payers

Interacts with Global Program Heads, Global Program Clinical Heads, s and HE&OR and Global Program Regulatory directors to influence program strategies

About the Role

This hybrid role will report to Head - PCO Center of Excellence

Major accountabilities:

Leads multidisciplinary teams of senior functional experts focusing on facilitating and monitoring of development and implementation of PCOs strategy in individual GPTs

- Accountable for the functional excellence in PCO development and implementation across the organization
- Accountable for PCO planning content in development programs and ensuring quality inputs for regulatory and market access purposes
- Drives capability building for the Clinical Development and Global Medical Affairs community encompassing all major aspects in developing PCOs, leveraging cross-functional exchange of expertise within Value & Access, Patient Engagement, Digital Endpoints Capability Center, and external experts
- Participates in and leads projects on behalf of the PCO Alignment Forum (Patient Engagement, Digital Endpoints Capability Center, Clinical Development PCO, and V&A PRO groups)

Contributes to the establishment of short- and long-range vision and strategy for PCOs development and implementation

- Leverages knowledge, experience and understanding of external stakeholders and internal goals and

- capabilities to develop a compelling and innovative vision for PCO for individual programs/brands
- Ensures cross functional and cross divisional alignment
- Drives and/or anticipates internal and external changes reflecting relevant regulatory requirements to maintain constant, state-of-the-art output in the area.
- Maximizes efficiency by identifying existing resources and COA instruments to meet program timelines
- Collaborates with Global Program Teams to secure individual program internal buy in.
- Support Biomedical Research in developing an overall strategy for early-stage implementation of PCOs

Represents Novartis externally in Industry Associations, Heath Authority and Payer discussions concerning PCOs and impact on individual products.

- Supports individual program teams in their interaction with HAs and Payers concerning PCOs
- Represents Novartis at Industry Associations and public initiative where PCOs is a topic (e.g., IHI, NIH partnership projects)

Minimum Requirements:

- MD (desirable) or MSc/PhD in relevant field
- At least 5 years relevant experience in Pharma or consultancy
- Good knowledge of the drug development process spanning from research to commercialization with emphasis on projects requiring PROs or COAs in their development
- Ability to lead without formal authority
