## Sommario

Posting Title: Laboratory Asset Maintenance and Calibration Engineer

Onsite East Hanover, NJ

### Role Purpose

Responsible for the execution of maintenance, calibration and commissioning activities for equipment and instrumentation projects at site level. Performs a wide range of maintenance, calibration & repair activities on laboratory systems, equipment, instrumentation. Ensures efficient, timely GMP, HSE and regulatory compliant maintenance and calibration of systems and equipment to include troubleshooting instrument failures with the ability to diagnose and perform effective repair. Ensures good workmanship with minimum delay to support the safe, effective and compliant operation of the CGT East Hanover laboratory facility equipment.

### Major Accountabilities

- Execute work orders for maintenance & calibration as per method statement/ procedure and completes equipment work orders thoroughly and accurately documents them in the Computerized Maintenance Management System.
- Provides maintenance / calibration work on laboratory systems and equipment and performs documented troubleshooting studies on equipment to outline opportunities for improvements.
- Support and/or perform investigations / deviations from an engineering / maintenance perspective and help with data for timely closure of deviations and CAPAs.
- Manages tools, spare parts etc. for maintenance I calibration, as required to include the goods receipt, incoming inspection, inventory control, and storage of spare parts to ensure adequate stock for quick repairs and improvements.
- Adhere to all applicable procedures, cGMP, company policies and any other quality or regulatory requirements. (For example: OSHA, DEA, FDA, EMEA, ANVISA, HS&E, etc.).
- Plans and schedules third-party vendors for routine and non-routine maintenance and qualification and provides 3rd party service provider oversight as local process Subject Matter Expert (SME).
- Continuously develops personal and professional skills.

### Key Performance Indicators

- Highest safety standard implemented during projects and operations, no critical findings in HSE or regulatory/internal audits
- Completes PM's and Calibrations on time as scheduled
- GMP/HSE compliance
- Adherence to Site KPIs

## About the Role

## Role Requirements:

- University degree (BSc) or 5+ years hands-on Laboratory systems and equipment maintenance and calibration experience in a regulated facility Strongly Preferred
- Cell and Gene regulated facility experience preferred
- 2+ years maintenance and calibration experience in a regulatory facility, Cell and Gene facility experience preferred

**Why Novartis:** Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining
