## Sommario

Novartis is a global company that combines medical science and digital technology to provide life-changing medicines to millions of people. We offer numerous opportunities for growth and development, including global and local cross-functional careers and a wide range of learning programs. Our strong pipeline of medicines ensures continued business growth and enables us to bring innovative treatments to patients quickly.

Novartis Patient Support (NPS) plays a crucial role in helping eligible patients access and continue their prescribed medications. We work directly with patients, caregivers, and prescribing customers to provide education and support on access, affordability, acquisition, and adherence programs. Our team has supported millions of patients in the US, assisting over 500,000 patients annually.

The Novartis Patient Support Center (PSC) is the central operational function within our organization. We handle all patient, caregiver, and customer transactions related to supporting patient access, including intake, case management, benefits verification, prior authorization and appeals support, specialty pharmacy triage, and adherence support. We are committed to delivering exceptional customer service, which is measured through service level agreements (SLAs), key performance indicators (KPIs), and net promoter scores.

### Overview of job:

The Patient Navigator provides specialty brand education and case management support for healthcare providers and patients. From Intake to outcome, NPS Case Managers are dedicated to supporting healthcare providers and patients throughout the journey by providing ongoing education, support, solutions, and dedicated resources to help limit barriers that may hinder appropriate patient outcomes.

Under the general supervision of the NPS Supervisor, the Patient Navigator is responsible for customer service, support, education, outreach, and case management for patients. As a Case Manager, you will be assigned a specific territory to work within and become an expert in that regional area to best assist the individuals who call in, enroll, or require financial assistance.

The Patient Navigator will work interactively with internal teams, patients, healthcare providers, pharmacies, and other external parties. The Case Manager team will also support various patient education and financial assistance functions. The Case Manager will respond to all patient and custom-er/provider account inquiries.

This position does not involve the practice of nursing, provide clinical advice or counseling for the patient. Documents all interactions with the Novartis Patient Support Center are in compliance with HIPAA regulations.

## About the Role

### Your responsibilities will include, but are not limited to:

- The Patient Navigator interacts directly with Health Care Providers, Office Contacts, patients and/or their caregivers via telephonic support and acts as a single point of contact and voice for patients.
- Learn and utilize protocols to respond to customer phone, chat, fax, SMS / text, mail, and e-mail inquiries as well as other communication channels in a prompt and courteous manner
- Professionally and compliantly interact with customers, relevant Novartis associates, and other external contacts during inbound and outbound phone calls.
- Provides guidance to physician office staff and patients on how to complete and submit all necessary program applications in a timely manner
- Manage assigned cases throughout the patient journey; perform proper and timely escalation, tracking, triage and follow-up where required
- Handle complex interactions and/or cases as it pertains to navigating insurance, specialty pharmacies and financial assistance with exceptional customer service
- Educates on support resources and information relating to Novartis therapies as prescribed by an HCP, including access offerings, disease state and relevant dosing/administration, treatment reminders within the established guidelines of approved call cadence guides and work instructions
- Adhere to call guides, job aides and work instructions for case processing and case cadence.
- Adhere to Service Level Agreements (SLAs), Key Performance Indicators (KPIs), productivity, and quality metrics.
- Leverage dual monitors and technological solutions to support Case Management activities.
- Accurately and concisely document all interactions to inform cross-functional partners on the relevant status details.
- Promptly and courteously respond to tasks and notifications from PSC counterparts.
- Works on problems of moderate scope where analysis of data requires a review of a variety of factors. Exercises judgment within defined standard operating procedures to determine appropriate action
- Ability to work independently or as a Team member, typically with minimal instruction on day-to-day work, general instructions on new assignments
- Extensive knowledge of HIPAA regulations and follows all company policies
- Provides education and support for Risk Evaluation and Mitigation Strategy (REMS) Program requirements.
- As applicable, raise innovative ideas which will drive improved efficiency and effectiveness of customer service to Supervisors.
- Responsible for identifying and reporting adverse events via the established Novartis systems as per applicable processes.
